

[PATCH 2.6.16-mm2] Kconfig SND_SEQUENCER_OSS help text fix

Source: <http://linux.derkeiler.com/Mailing-Lists/Kernel/2006-03/msg09573.html>

- *From:* Frederik Deweerdt <deweerdt@xxxxxxx>

-

Hi Andrew,

The SND_SEQUENCER_OSS config option in sound/core/Kconfig claims it could be compiled as a module despite being a bool. This patch removes the misleading help text. This should apply to 2.6.16 as well, should I resend a patch?

Regards,
Frederik

```

Many programs still use the OSS API, so say Y.

- To compile this driver as a module, choose M here: the module
- will be called snd-seq-oss.

```
-
config SND_RTCTIMER
tristate "RTC Timer support"
depends on SND && RTC
```
