Thank you very much! The patch you supplied fixes the regression!

What do we need to do in order to get this patch applied in mainline so that the regression gets fixed?

To be honest, I was expecting a few replies from the appropriate kernel developers. It looks like I have missed something in my regression report.

This did happen in a different thread. Looks like a final patch has now been found which can be expected in mainline soon. See:

<http://lkml.org/lkml/2008/2/28/76>

Cheers,

FJP
