To: <redhat-list@redhat.com>

I can't find ipxutils or ncpfs packages in the RH Ent 3 distro. Anyone know if ipxutils-2.2.0.18-6 and ncpfs-2.2.0.18-6 will work? have problems? are supported?

OR

Is there another way to access Netware (< 6) servers from RH Ent. 3.

Thanks,

-Steve
