hi...

i know this is for the rh list (not necessarily FC..), but maybe someone might know the answer..

looks like i'm going to bit the bullet and reinstall/update FC2. how would i go about reinstalling just the very basic FC2. i'm trying to not screw up the other existing apps that i've got on the system...

also, can someone point me to a location for the FC2 iso torrent? can't seem to find it using google...

thanks

bruce
