To: "For users of Fedora Core releases" <[fedora-list@redhat.com](mailto:fedora-list@redhat.com)>, <[redhat-list@redhat.com](mailto:redhat-list@redhat.com)>

There use to be a great comparison chart for Linux equivalent of Windows software.

<http://linuxshop.ru/linuxbegin/win-lin-soft-en/table.shtml>

It is defunct. Does anyone know of a similar chart?

Or what is a good Net Meeting type software that integrates easily with Window clients?

Thanks.
