Hi

I have live server in which 1 partition is full with 100%. I partitioned without enabling LVM. Now How can I increase the size of that partition. I have free/unused space as 5 Gb. means Total of 32 GB I have partitioned in 25 GB So I have 5-7GB free-unused space. I want to utilize this space.

Rgds

Darshak

Subject: Raid Tool Help

Dear Team,

I have rhel4. I have configured raid 1 while installing the os. It was working fine. Recently one of the hdd failed. I replaced the hdd. How to rebuild the raid again? Pls help

Regds,

Subi Bhaskar.
