When i checked /etc/ntp.conf , there is ip NTP server listed there.
i already upgrade my RHEL 3 update 5 to RHEL 3 update 7 .
Now my Workstation working well .
We using NTP server because we centralized license application .
Thanks manuel for your support
btw i am still wondering why the sincronized time from Workstation to NTP
server is failed

Regards
yoseph

Could be a great idea to be more specific with the error messages you got
:-).
By the way, could you show us /etc/ntp.conf file?
Moreover, are you sure that NTP server you're trying to use is up?

Greetings.
