This will find all files over 500mb:

```
find / -mount -type f -size +1000000 -ls
```

Subject: RE: Areas that can be cleared out on Redhat Machine

Just checked in /var/spool/mail and i only had one small file in there. Any other ideas?

Regards

Andrew Bridgeman

Subject: Areas that can be cleared out on Redhat Machine

I have a Redhat machine which is getting to full capacity on the / root partition. I have removed things in /var/log but it did not really clear alot of space. Could someone tell me what other areas i can look at clearing out?

Regards
