Anyone know why the following simple bash script fails on RHEL3 (fully patched)? It seems the "trap" command is being silently ignored.

```
-----  
#!/bin/sh  
  
sigtrap () {  
echo "Caught signal!"  
exit 0  
}  
  
trap sigtrap 1 2 3 15  
  
while read X; do  
echo $X  
done  
-----
```

Simon Ashford.
