If you refer to nfs RPC ports, reading /etc/init.d/nfs tell you the truth.

File: /etc/sysconfig/nfs

Vars:

STATD_PORT=

MOUNTD_PORT=

LOCKD_TCPPOINT=

LOCKD_UDPOINT=

RQUOTAD_PORT=

Set to yours.

Hi All

Does anyone know how to modify/change the RPC dynamic ports on RHEL 4? I know this must involved portmap, but can't find any documentation on how to modify RPC ports on Red Hat/

Your help is appreciated! –Anne
