For now I have put the settings back to `Overcommit_memory=0` and `Overcommit_ratio=50` which was the default settings. The setting i tried though was `Overcomitt_memory=1` and `Overcommit_ratio=50` (with this setting the errors still occurred).

Regards

Hi Andrew,

Could you specify what you `Overcommit_memory` and other relevant settings are at the moment.

I have had a play around with the `Overcommit_memory` settings and

RE: Out of Memory – continued

Overcommit_ratio settings and i am still getting "Out of Memory –
killed
process" errors. One thing i did notice was the errors are appearing
on
our
