A fortnight of video images has been made of a short holiday.  
Before this video is going home with one of the participants,  
I would like to burn a vcd with the captured pictures.  
Images are on a Video 8 cassette and the camera can be  
connected with my video card with a cable.  
I run Kwintv on my SuSE 8.2.  
What do I need to make a copy?
