Date: Sat, 30 Aug 2003 23:11:32 -0400

I'm using K-mail and the other day I recieved an e-mail that seemed to be nothing but a header. I was reading the SuSE-E list today and found the same thing agian. I was able to read the message by having the sender try my other address which used pine.

This is the header from the list
