You were NOT told to go to `_root_`. You changed root's printing parameters, not your as user.

> *Then I rebooted, and went and tried the printer.*

Remember, it's linux. Windoz requires frequent reboots.

> *Same old thing with no change whatsoever!*

Right, you made the change for root, not yourself. Linux is a multi-user system.

> *I really admire how you all get it work or know how to, where all I*
> *get is junk!*

Please read and use the instructions and advisements offered to correct your problem.
