Hi,

where can I find an 0.7.4 rpm for suse 8.2. Apart from not being very good with the command line the person this is for does not have a fast PC to compile it in a reasonable time, whatever that would be. ;)

I did not find any packages at packman, neither did the version in the supplementary directory for 8.2 solve the MSN problem as the one for 9.0 did. I do not have 8.2 so I cannot create one on my own, eben if I knew how to do it.

Thanks,

Sven
