For some reason ,y wife's two laptops lost access to the intebet as soon as I switched over to ISDN. I changed nothing else.

My PC is 192.168.0.1 on the LAN and hers are 192.168.0.2/3 depending on which she plugs in.

I have no specific routing setup up. in fact I never set routing up before anyway,

path usualy is 192.168.0.2 <--> 192.168.0.1 <-> Internet

Firewall is the standard SuSe Firewall

Sean
