> *mount: /dev/sda4 is not a valid block device*

in a console do:

```
grep sda4 /etc/fstab
```

post the output to the list here.

if there is no output, do:

```
su
```

```
<root-password>
```

```
/sbin/rchotplug reload
```

```
exit
```

```
mount /media/sda4
```

report your success or failure
