To: Joel Carlson <fox7777@carlsonco.net>, SuSe-Linux E <suse-linux-e@suse.com>

To All: For Mozilla 1.7, I have found a plug-in that must be installed.

Even though I was able, with a great deal of help from my SIG, in figuring out a regular tar.gz, this one starts out really differently.

File: `install_flash_player_7_Linux.tar.gz`. ????? :-)
