Hi,

I'm running Suse 9.1.

When I try to start Audacity, it fails with these errors:

```
sunny@linux:~> audacity
```

```
(audacity:8983): Gtk-CRITICAL **: file gtkacellabel.c: line 214
```

```
(gtk_accel_label_new): assertion `string != NULL' failed
```

```
(audacity:8983): Gtk-CRITICAL **: file gtkmisc.c: line 211
```

```
(gtk_misc_set_alignment): assertion `GTK_IS_MISC (misc)' failed
```

```
(audacity:8983): Gtk-CRITICAL **: file gtkcontainer.c: line 949
```

```
(gtk_container_add): assertion `GTK_IS_WIDGET (widget)' failed
```

```
(audacity:8983): Gtk-CRITICAL **: file gtkacellabel.c: line 400
```

```
(gtk_accel_label_set_accel_widget): assertion `GTK_IS_ACCEL_LABEL
```

```
(accel_label)' failed
```

```
Segmentation fault
```

So, I googled for it, but no resolution so far.

I have ran it in debugger, so I'm attaching more info. Unfortunately I can not make use of that info :(

Here is the output of the debugger:

```
sunny@linux:~> gdb /usr/bin/audacity
