ok, so far, no suggestions have helped, I'm still missing the ability to switch users from the menu. I have Lock session and log out, but no switch user, and I haven't found any control center menus to turn it on.

I searched the archives, SUSE help center, and google, with no luck.

Anyone??

does anyone know what RPM or package that is in? is this a KDE issue, or SUSE ?

I am running SUSE 9.2 with the latest YOU updates installed.
