To: suse-linux-e@suse.com, suse-amd64@suse.com

XMMS was installed from SuSE's dvd and all patches from YOU were applied. Whenever a cd is played, XMMS exits with a segmentation fault. I am now giving up with SuSE XMMS implementation and would like to compile it from source.

At the moment, compiling XMMS gives libmikmid, libvorbis and libGL errors. It appears that the scripts cannot link with the right libraries and include files or cannot find them. Can anyone offer any assistance with compiling XMMS on a AMD64 computer?

Thanks.

Sudhir.
