I like news and tried to use gmane.org, as was said in a previous mail here.

however, when I try to write to the list I got this

<suse-linux-e@lists.suse.com>: host

 sorry, your envelope sender is in my badmailfrom list
(#5.7.1) (in reply to

 RCPT TO command)

is it possible or not to write through gmane? (of course I'm also subscriber of this list)

thanks
