Is there anyway to check if a particular user like me is responsible for the pain ?

please mail a check or something of that sort such that me / other users who dont understand whats going on can unsubscribe if they are causing the problem.

Would the Bozo, who insists on using "pk@xxxxxxxxxxxxxxxxxxxxxx" as an email address please stop doing so!!! All you do is generate lots of bounced mail messages for users on this list.

—

I have gotten this this morning too, from messages that I sent the list 2 weeks or so ago. I just deleted and counted it as a strange happening, good to know I was not the only one getting them back.
