Unable to load interpreter /lib/ld-linux.so.2

Check for existence of that file and check for mode 755.

troubleshooting advice? /lib/ld-linux.so.2 is linked to /lib/ld-2.4.so

And check ld-2.4.so too, if the former is a symlink.

Thanks for your response. That was the first thing I looked at, it seems fine though:

```
craig@pablo:~> ls -l /lib/ld-linux.so.2
lrwxrwxrwx 1 root root 9 2006-06-23 08:38 /lib/ld-linux.so.2 -> ld-2.4.so
craig@pablo:~> ls -l /lib/ld-2.4.so
-rwxr-xr-x 1 root root 124463 2006-05-26 17:31 /lib/ld-2.4.so
```
