Hello all:

Recently I got back about ~20 emails I sent earlier to opensuse list.

Has this happened to me only or to others too?

The mails I got back look like this:

Dátum: Sat, 3 Mar 2007 01:44:56 +0100 (CET)  
Feladó: "Mail Delivery System"  
<[MAILER-DAEMON@xxxxxxxxxxxxxxxxxxxxx](mailto:MAILER-DAEMON@xxxxxxxxxxxxxxxxxxxxx)>  
Címzett: [suseuser04@xxxxxxxxxxx](mailto:suseuser04@xxxxxxxxxxx)  
Tárgy: Undelivered Mail Returned to Sender

Megjegyzés: Notification

This is the Postfix program at host dothangizmo.gk.lan.

I'm sorry to have to inform you that your message could not be delivered to one or more recipients. It's attached below.

For further assistance, please send mail to <postmaster>

If you do so, please include this problem report. You can delete your own text from the attached returned message.

The Postfix program

<[4suse@xxxxxxxxxxxxxxxx](mailto:4suse@xxxxxxxxxxxxxxxx)> (expanded from  
<[4suse%growingizmo.de@localhost](mailto:4suse%growingizmo.de@localhost)>): host  
mailin.rzone.de[81.169.145.100] said: 550 5.0.0  
<[4suse@xxxxxxxxxxxxxxxx](mailto:4suse@xxxxxxxxxxxxxxxx)>...  
Dial-Up IP address rejected (in reply to RCPT TO command)

Then the returned mail follows.

So what is going on here?

Cheers,

[opensuse] a bunch of returned mails

IG
