Hi all,

How soon will there be an openSUSE 10.2 RPM for OOo 2.2? I would like to stick to the OOo that was "created by Novell, Inc. based on OpenOffice.org". The latest release I have is Build 2.0.4.7.

You can get later openSUSE 10.2 editions of OpenOffice.org from here: [http://software.opensuse.org/download/OpenOffice.org/openSUSE\\_10.2/](http://software.opensuse.org/download/OpenOffice.org/openSUSE_10.2/) but it hasn't received the 2.2 RPMs yet.

Jon
