Looking at the other defaults provided, all have a parameter added.

The existing command line was " krusader -caption "%c" %i %m "

I tried adding %s and %u , making " krusader -caption "%c" %i %m %s %u "

still the same behavior. Should I be deleting the %c %i or %m ?

try just "krusader %u" and nothing else. all the other variables are for things like titlebar name and icons etc.

thanks,

Regis
