Dieter Schicker wrote the following on 01.10.2006 21:51:

Hi,

I'm trying to burn data to a DVD-R with Nautilus. It tells me

```
<snip>
The following disc types are supported:
CD-R, CD-RW, DVD+R, DVD+RW
</snip>
```

How can I burn a DVD-R?  
^

Many thanks in advance  
Dieter

Does your DVD support -RW ?

What gives you:

```
$ cat /proc/sys/dev/cdrom/info
```

?

bye Thilo
