Subject: I want to buy a laptop compatible with Linux

Hello friends,

I'm a Venezuelan guy – southamerica– who is interested on buying a laptop, but I would like to know the following points:

1) Is the Hewlett-Packard Special Edition Notebook with AMD Turion(tm) 64 X2 Mobile Technology TL-56 – White, 100% compatible with UBUNTU?.

2) Are there another good laptop brand, which costs no more than \$1000, that some of you could recommend to me?.

The cost of about computer at bestbuy is \$999,99.
I'm planing to import the computer from USA.

The full information of the Hp Special Edition is:

Warranty Terms – Parts 1 year limited
