SuSE 9.2: does tar work?

Source: <http://linux.derkeiler.com/Newsgroups/alt.os.linux.suse/2004-11/2564.html>

I have installed SuSE 9.2 Professional on two different machines. On both of them /bin/tar does not work properly: it dumps core both on creation and extraction of archives.

Is there something wrong with the distributed binary or is it me? Please let me know.
