I am getting this error when running dosemu. Does anyone have any ideas?

```
ERROR: cpu exception in dosemu code outside of VM86(!)
trapno: 0x0e errorcode: 0x00000004 cr2: 0x20081aba
eip: 0x081abb28 esp: 0xbffffb44 eflags: 0x00010296
cs: 0x0023 ds: 0x002b es: 0x002b ss: 0x002b
Page fault: read instruction to linear address: 0x20081aba
CPU was in user mode
Exception was caused by non-available page
ERROR: leavedos() called from within a signal context!
